

TEAM MEDIA EVENT CODE OF CONDUCT AGREEMENT

As registered team media vehicles you are asked to respect the integrity of the Challenge and the spirit of fair play.

As an accredited team media participant in the event, you agree to adhere to the events code of conduct and will be asked to sign this agreement before receiving your accreditation pass. You agree that you will: -

- 1. Follow the instructions of all event officials** and the Northern Territory and South Australian police.
- 2. Officially registered team members** (who are performing media roles within the team/and or performing a dual role) may assist with entry and support vehicles in line with regulations and team protocols. All other media travelling with the teams or independently, may not assist, attempt to assist, or interfere with any entrant or their support vehicles.
- 3. Not drive in a way that prevents safe passage** for all other vehicles on the road. Failure to do so may result in not only your removal from the event but the elimination in the case of 'team media' of the team you are covering from the event.
- 4. Park well off the road if you stop along the route** to photograph vehicles.
- 5. Be considerate when overtaking Solar Cars and do not hog the road.** Other media crews will also be wishing to obtain footage. Get your footage/photographs and move on in a reasonable time frame.
- 6. Do not pull in directly behind a solar vehicle when overtaking,** unless it is necessary due to safety. Pulling directly behind a solar vehicle restricts the view of the team's data vehicle.

**NORTHERN
TERRITORY**
